

Hi! We appreciate your interest in localization! These organizations are where the rubber meets the road, so to speak. While these organizations are specific to the San Francisco Bay Area, localization is occurring all over the world. If you or someone you know has a list of organizations for your region, feel free to send it to intern2@isec.org.uk and we would be happy to share it on our website. It is our hope at the International Society for Ecology and Culture (ISEC) that you will find community, fulfillment and happiness by working on local solutions to economic globalization!
